LAND COMMITTEE

The Committee applied to Nicholas Cox, Esq'r for information touching the Claims of the 25 Petitioners mentioned in the foregoing, who referred the Committee to the Minutes of the Land Board for the District of Gaspé between December 1789 and May 1791, delivered by him to Mr. Secretary Motz; and having obtained the perusal thereof in the Council Office where the Minutes are filed but have not been referred to this Committee they do not find that any of the said 25 Petitioners have obtained Lands elsewhere to exclude them from holding

5.

the Tracts pointed out in their Petitions; but as it is impossible for the Land Committee to ascertain whether the sites described may or may not interfere with that part of the Beach and wood which by Law is reserved for the use of the Fisheries, they Humbly submit whether it might not be expedient to return the 25 Petitions to the Land Office Board for the District of Gaspé with direction to employ the Acting Surveyor there to lay down upon the Plan (to be returned with the Petitions to the Office of the Governor's Secretary) the Tracts applied for in order to exhibit their true situation in the Township in which they may be comprehended, in a manner so clear and distinct as to enable His Majesty's Attorney General to make out Patents for the applicants.

The Committee beg leave to observe that if the Townships upon the Fishing Coast of Chaleur and Gaspé Bays are to be subdivided as the Inland Townships into Lots of 200 Acres and that a seventh part of the lots in every range of concessions is to be set apart for the future disposal of the Crown and another seventh part for the maintenance of a Protestant Clergy (these Lots not to join each other) the Petitioners cannot obtain the spots they desire to possess - at least such of them as may not be in possession of location certificates for the Tracts prayed for.
